Introducing *Digital Magic Tricks* Summer Workshops

We would like to extend an invitation to your organization to host an exciting summer workshop for educators, *Digital Magic Tricks*. *Digital Magic Tricks* is a 2+ day learning experience based on the [Powerful Ingredients for Blended Learning Framework](#) (PI4BL) by Wesley Fryer and Karen Montgomery.

We are currently seeking educationally focused organizations willing to host workshops for up to 50 educators during the summer of 2010. Hosting organizations are responsible to provide a room, equipment and resources for two consecutive, full days of PI4BL workshop activities (9 a.m. - 3 p.m. each day) and one 1.5 hour videoconference scheduled approximately 60 days following the face-to-face workshop. PI4BL workshops are BYOL, or "bring your own laptop." Detailed workshop information is available online at [The Digital Magic Tricks](#) webpage.

The following workshop dates are available for summer 2010:

<div align="center">

July 6 & 7 or 8 & 9

July 19 & 20

August 2 & 3 or 5 & 6

</div>

Please read over the attached flyer about *Digital Magic Tricks* and consider being a workshop host. If you wish to be involved, please think about what days you would be able schedule your workshop. For additional information and hosting details, please contact Karen at montgomery.karen@yahoo.com or complete the electronic [contact form](#). We hope to see you this summer!

Sincerely,

Karen Montgomery & Wesley Fryer

P.S. If you are interested in scheduling a PI4BL workshop during the 2010-11 school year, just let us know.
